more joy of life.**

HAWLE
TREPPENLIFTE

HAWLE MOBILITY® – no barriers in everyday life

Living conditions change.

Regain your mobility by using our stairlifts: we offer individual solutions for internal and external stairlifts, for curved and straight staircases.

HAWLE stairlifts are manufactured in our own factory and therefore optimally adapted to your personal needs.

- the Hawle stairlift can equally well be installed in old and in new buildings
- stairlifts for the living area and also for the outdoor area
- space-saving parking even in exceedingly narrow spaces
- even for steep stairs with a gradient of up to 75°
- safe mounting even outside of your stairway

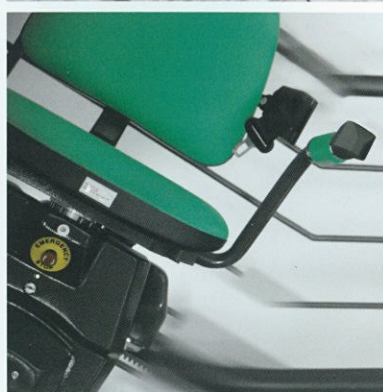

- everything from one source
- individual configurations for individual solutions
- stairlifts for straight and curved staircases
- stairlifts for the living area and also for the outdoor area
- reliable, economical and powerful
- large colour and pad selection
- sold world-wide

For technical enquiries about our products our team is readily available to help you at any time!

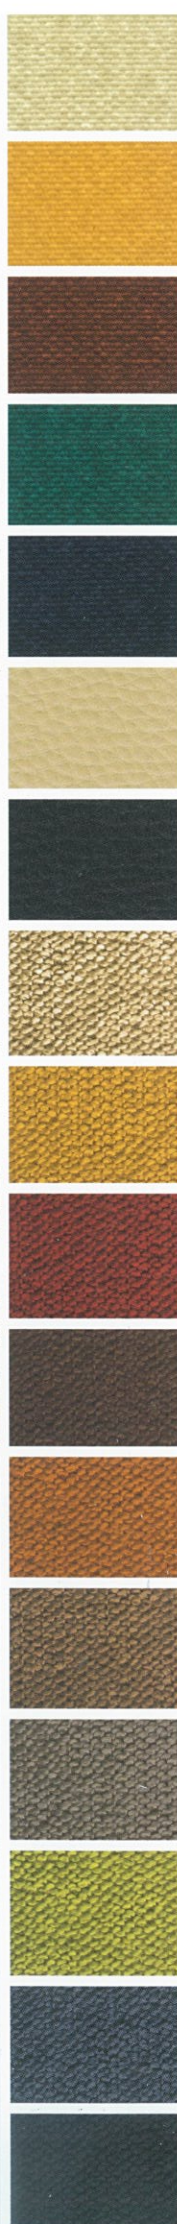

HAWLE STAIRLIFT HW 10 – technical documentations

In designing the Hawle stairlifts we make no concessions as far as convenience, practicality and safety are concerned. The innovative construction and the materials used ensure that a maximum of quality and reliability is being realised.

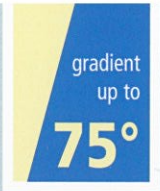

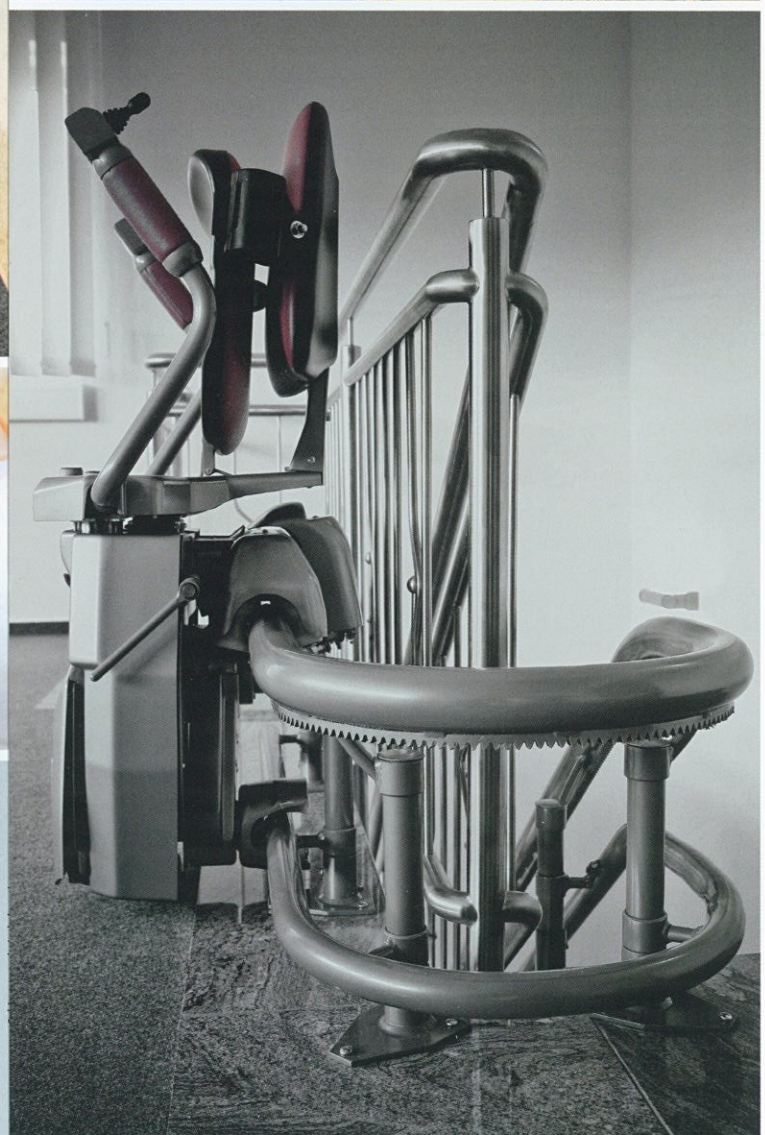

Adapt your Hawle stairlift to your personal environment. A lot of colours are possible. The seat pad coverings are made of synthetics, velours or leather. They are easy to clean and flame resistant.
