Savaria™ Multilift Enclosed Vertical Platform Lift

ACCESSIBILITY MADE EASY

The Savaria Multilift vertical platform lift is a value-packed product that can be used for home or commercial* applications. Built to carry a wheelchair passenger for up to six feet of travel, this enclosed unit provides protection from the weather when used outside. For interior use, the enclosure provides added safety and a pleasing appearance.

Fully self-supporting, this Savaria lift can easily be installed in most locations. The simple installation requires anchorage to a concrete pad so the lift can be up and running quickly. The aluminum enclosure can be finished with optional metal, acrylic or glass inserts, a rooftop acrylic dome and automatic door or gate operators. Easy to operate using a constant pressure button, optional hand pendant or joystick. The enclosed Savaria Multilift is accessibility made easy.
